

Heather Hill Elementary School Detention Basin Update — Sept. 6, 2024

Greetings, Heather Hill families:

The basin contractor has finished all of the grading and topsoil placement this week, along with the removal of heavy machinery. A bulldozer will remain in the basin for the landscaper's use, if needed. The installation of the permanent fence is expected to begin next week (September 9). Village staff will continue to assist during the school's recess periods until the permanent fence installation is completed. Concrete sidewalk and curb replacement/restoration and landscaping will follow later in September.

Thank you for your patience and understanding as this project moves toward completion. Should you have any construction-related questions, please reach out to the Public Works Department at 708-957-4100, available Mondays–Fridays from 7 a.m.–3:30 p.m. The Village will continue to provide construction updates as they become available.
